What is the vapor recovery system or components that you are seeking to purchase? If equipment is on order, who was the order placed with and what was the order date? Please attach documentation confirming the order.

What is the compliance deadline for this vapor recovery equipment? Or if equipment is for scheduled construction, what is the date by which this equipment is needed?

How did you determine that the vapor recovery equipment was unavailable?

Did you investigate the availability of alternate compliant vapor recovery systems or components?

Based on your research, when is the earliest that you can expected to receive the compliant vapor recovery equipment? What is the source of this availability estimate? Please attach documentation of the expected shipment date.

What are the consequences of the equipment delay? If applicable, please explain why the construction date cannot be postponed.

Have you contacted the local air pollution control district regarding this concern? If so, what did the district staff advise?
